

What are the three favorite sports of the students of PraxisNMS Graz?

## Favorite Sports at our school

We did a quick survey in our school and asked the children about their favorite sports.

This is what we have found out:

The favorite sport in our school is soccer. A lot of children like playing soccer, especially the boys. Some boys play soccer in a club, but most boys just play it with friends after school.

After soccer comes skiing, because it's very nice and we live quite close to the mountains. Many students go skiing in the Christmas holidays and in the semester break.

The third place is basketball. We have a basketball hoop in the school yard and the children like to play basketball in the long break and after lunch.
