Exploring Graz with a magnifying lens

On Thursday afternoon you will be exploring Graz in small groups. Ideally, you will form international groups – but we leave it to you to form small groups yourself.

You have two main tasks to complete:

1. Follow the instructions of the Actionbound quest. This treasure hunt will guide you through the town center and point out some of the most interesting places. If you do not have internet access in Austria, download the bound before leaving the school or your hotel. Keep the bound open until you are back at your hotel in the evening and then upload the results using the WIFI connection at the hotel.
2. Parallel to this walking tour, keep your eyes wide open and notice lots of little details and interesting aspects of our town and our school. Take photos of these things. We will need these pictures for our TV production on Friday. Here, we are interested in everyday things that may be different from your country.

- What do you notice?
- What questions come up during your visit?
- What is different from your country?
- What is the same?
- What can you learn from us and what can we learn from you?

- Download the app **Actionbound** on your phone.
- Scan the QR code on this page.
- Enter your (group-)name and follow the step-by-step instructions.
