## Dear friends,

Everything is closed, and we cannot even meet our friends in our own countries. BUT, we can still look outside and travel in our minds. We can travel by reading books, AND, we can meet friends – even new friends online. This is what we are going to do in our **GOAL meeting on Zoom**.

### Part 1: Welcome chat

We will all meet on Zoom and start our discussion in a big group. We will welcome you and each country will briefly tell us where you are from (country, city, school). Maybe one person in each country can prepare 2-3 pictures on your computer that you can share with us in this phase. A map? A photo of your school?

### Part 2: Group discussions: Finding out about our everyday lives before Corona times and now

In this part we will be put into mixed groups, with students from all the different countries. The teachers of all the countries will also join the different groups. In your groups, find out as much as possible about the following things. Take notes on your sheet, so you can later discuss the answers with your teachers at home.
