

Fresh self-made recipes

Easy to make – delicious to eat

by Laura Friedl

Over one-year Corona have controlled our lives. Even in the summer holidays we cannot choose what to do. In order to help you think about something else, we created 2 recipes for the summer holidays to relax and find the summer feeling. The ingredients for both recipes are cheap. The first recipe is for a self-made ice cream. To make ice cream you need an ice cream machine. We decided to put an extra recipe into the magazine, because for this recipe you don't need any extra tools, and everyone can make this. This recipe is for strawberry Tiramisu. Both recipes are delicious.

Ice cream

Strawberry Tiramisu

300g raspberry 20ml milk 250ml whipped cream 1 tbsp Lemon juice 100g powdered sugar	1 kg Strawberry 750g Mascarpone 500g curd 2 EL Lemon Juice 120g powdered Sugar 40 pcs. Ladyfingers
Puree the Raspberry with the mixer	Puree the strawberries with the lemon juice and powdered sugar. Then mix the mascarpone with the curd with 2/3 of the strawberry mixture
Put the raspberries, powdered sugar, lemon Juice milk and whipped cream into the container of the ice cream maker	First, place the ladyfingers in a shape and then give some strawberry mixture on top
Freeze the ice cream maker for 40 minutes	Put another layer of ladyfingers on top and so on. Finish with the strawberry mixture
Then you can serve the ice cream	Put the Tiramisu in the fridge for 6 hours. Then you can eat it.

<https://pixabay.com/de/photos/eis-himbeere-lebensmittel-creme-1564728/>

<https://pixabay.com/de/photos/tiramisu-dessert-kuchen-scheibe-6172170/>

I hope that you enjoyed reading my article. Maybe you will try one of the recipes in the summer holidays or even in the next few weeks. I can recommend both recipes, because the taste of strawberries and raspberries create the best summer feeling.

Jokes

The other day, my wife asked me to pass her lipstick, but I accidentally passed her a glue stick. She still isn't talking to me.

When I see the names of lovers engraved on a tree, I don't find it cute or romantic. I find it weird how many people take knives with them on dates.

I visited my friend at his new house. He told me to make myself at home. So, I threw him out. I hate having visitors.

Never break someone's heart, they only have one. Break their bones instead, they have 206 of them

As I get older, I remember all the people I lost along the way. Maybe a career as a tour guide was not the right choice.

The Volcanos of Hawaii

The biggest volcano of the world

by Laura Frieid

Every year there are 50 to 60 volcano eruptions. Some volcanos are always active. In the last 10.000 years were 1900 volcanos active. At some inactive volcanos there are tours, where you can look at the volcanos. These tours aren't dangerous, because you have a guide. Of course, for trip like this you need a guide. The biggest volcano of the world is called Mauna Loa.

Kilauea

The Kilauea is an active shield volcano* on the big Island of Hawaii. A Lava has been flowing there since 1983. The Kilauea is a part of a chain of volcanos. The chain is called Hawaii-Emperor-chain*. The Kilauea is the most active volcano of the world. The volcano erupted 2018. Fountains of Lava rose and there was a 1,1 km lava flow.

Mauna Loa

The Mauna Loa is the biggest Volcano of the world. The name "Mauna Loa" means "long mountain". The volcano is in the middle of the Pacific Ocean. He is also a part of the Hawaii-Emperor- chain*. Mauna Loa is 4170 m high and the length is 120 km. It covers 5270 km² and he has volume of 80.000 km³. The last outbreak of Mauna Loa was on 15. April 1984.

Maybe you have learned something about this text. I hope that I can visit a volcano in future. This is my biggest dream.

Hawaii-Emperor-chain*: That is a chain of volcanos in the Pacific Ocean
 Shield volcano*: A shield volcano is a volcano that has very thin lava and the lava flows very fast

The beautiful side of Austria

Ideas for wonderful day summer trips near Graz

by Elias Kitzberger

We can't be sure if we will be allowed to travel again in the summer holidays. Even if it's possible to travel, most of us wouldn't like to travel to other countries, because of the Corona pandemic. But that's not a problem. In Austria we have a lot of beautiful places too. Maybe not buildings as tall as in New York, or a sea like in Italy, but other cool and extraordinary things. In my opinion these two, day trips are these best. I've been to both and really enjoyed it much there.

[Österreich Flagge Wind - Kostenloses Foto auf Pixabay](#)

Lurgrotte: Near Graz there is the Lurgrotte cave. It's a fascinating trip. You can reach it easily from Graz. It's the largest stalactite cave in Austria. You can go into the Lurgrotte only with a guide. Every hour a guide tour takes place. In summer the tours are for free. In the winter a private guide tour costs 8 € (normally in winter there are no tours, so if you want to go there you have to book a tour). In the cave it is very cold, about 8 to 10 degrees. So, I can recommend wearing a jacket and comfortable walking shoes.

[Lurgrotte-2 - Lurgrotte - Wikipedia](#)

[Schokoladenmanufaktur Zotter Bergl Riegersburg](#)
[Schokotankstelle BASIC 50-100 - Zotter Schokolade - Wikipedia](#)

Zotter Chocolate Factory: Maybe you have already been there, I've been there more than three times. If you like chocolate the Zotter Chocolate Factory is a must. The tour starts with a short film. After the film an audio guide leads you through the factory. You can see all steps of making chocolate. After each step you can try the chocolate by yourself (not the finished one, but the chocolate after the process you have just seen). Sometimes it is delicious, but sometimes it is a bit too bitter. At the end of the tour you can try as much finished chocolate as you want. You can try chocolate flavours you have never heard before. There

are over 400 different flavours. After the tour you can buy Zotter chocolate in a shop. As I see it, the funniest thing is that Zotter also made a kind of chocolate graveyard. Every chocolate flavour that didn't succeed "rests in peace" there. Of course, such a big tour costs a lot. You have to pay 17.90 € for each person. Even if this is expensive I can recommend the chocolate factory for everyone. Normally I am not the biggest chocolate fan, but at the factory I liked it quite a lot

These are only two of many beautiful places near Graz. If you want to do more exciting things in the holidays you can check this list: [25 Best Day Trips from Graz as Recommended by a Local \(nomadepicureans.com\)](#)

Madeira

The island of your dreams

by Franca Harzl

Information about Madeira

The Portuguese word madeira means wood. It's an island in Portugal and has a population of 250 000. The island is located 951 kilometres southwest of Lisbon. The capital is Funchal.

Home of a football pro

Cristiano Ronaldo grew up there. He started playing football there at a young age and didn't have much money. Now there is a museum of him and a hotel. The island's airport is named after him.

https://cdn.pixabay.com/photo/2018/01/05/17/32/travel-3063482_1280.jpg

Holiday in Madeira

A vacation there isn't expensive. Everyone can have a great one within Europe. You pay 900€ for 7 days, and 2 people including flight, but you don't have food supply.

https://cdn.pixabay.com/photo/2018/07/23/00/27/portugal-3555841_1280.jpg

Influencers

Many famous Youtubers from Germany live in Madeira, because they pay less rent, or the price of a house is cheaper.

Different life than in our country

Living there is very different, because everyone knows everyone around them. The weather there is also completely different. It is not cold in winter. Only the sea is cold, and the air smells of fresh sea. There are also a few disadvantages, and it's that you can't drive there for so long, because in an hour and a half you are already at the end of the island. It's very quiet there, so the neighbours complain when you're noisy.

https://cdn.pixabay.com/photo/2018/07/26/22/53/madeira-3564818_340.jpg

Interesting places

The entire island has a medium to high mountain character. This means, that the weather is in some places different than in others. The highest mountain is the Pico Ruivo with 1862 meters. When you go to the city you see some dogs without owners.

Comparing Streaming Platforms

The only way to get through the Corona pandemic

by Laura Friedl

It doesn't matter if you are young or old. There are movies or series for every person on a streaming platform. Because of the covid-19 virus, more and more people are watching movies and series on platforms like amazon prime, Netflix and so on. In the lockdown the users on Netflix grew by 8,82 million. Here you can see the advantages and disadvantages of the respective streaming platforms.

Streaming platforms	Price	Try it for free	Offline-Mode	Streaming selection	Extra features
 <small>Netflix-new-icon - Netflix - Wikipedia</small>	7,99 €-17,99€/month	yes (1 month)	yes	movies/series	children's programm produce they own movies and series
 <small>Amazon Prime Logo - Amazon Prime - Wikipedia</small>	7,99 €/month	yes (30 days)	yes	movies/series	Amazon Prime membership Amazon Music Free shipping on Amazon
 <small>Disney+ logo - Disney+ - Wikipedia</small>	8,99 €/month	no	yes	movies/series	Disney Original/ Pixar Movies/ Star Wars Movies/ Marvel Movies
 <small>DAZN LoginBox black - DAZN - Wikipedia</small>	11,99 €/month	yes (1 month)	no	sport	You can choose between many different sports
 <small>Sky 17-03 logo - retina - Sky Österreich - Wikipedia</small>	9,99 €/month	no	yes	movies/series +sport	Packages can be booked individually Sports packages available

One of the cheapest platforms is Disney+, but it doesn't have a big selection of Movies. Netflix is more expensive, but there are also multiple user for it. Amazon Prime has a lot of extra features, not all movies and series are free. Dazn und Sky Ticket are more for people who like to watch sport. I prefer amazon prime because there is a much larger and better selection of movies an series and there are many extra features.

Destructive Korean Beauty Standards!

Why is it impossible to fit the Korean Beauty Standards naturally?

by Merit Aifesehi

The Korean Beauty Standards are actually very beautiful, but not when it gets toxic, depressing, and unhealthy. A slim body, pale skin, a V-shaped jaw, straight eyebrows, flawless skin, larger eyes, double eyelids, and heart shaped lips are a most in the Korean Industry! Ridicules, right? The fact that musicians, models, actors must follow those Standards and get judged, not because of their talents but because of their appearance is

not fair.

Surprisingly and sadly the discrimination and the beauty standards, have a very long history. Back in the days, people that were brown or dark skinned were identified as Farmers or very workers, because they must have been in the sun very long working. That meant that they were less privileged hard to work a lot to earn their money. People with paler skin were identified as privileged rich and successful. That meant that they came from a wealthy family and didn't have work a lot. This continued, and that was the start of the Beauty Standards.

Shockingly it is way worse today. Musicians start as trainee's first before they debut. They are thought everything about the Industry. The saddest thing is that they have to abide to the beauty standards and have a very strict and unhealthy diet. Like they are just aloud to consume 300 Calories a day, which is crazy. A lot of K-pop Idols have suffered from anorexia or weakness attacks, because of this madness. Social media has a very big influence on this since, they like whitening pictures to make them look "good", and if they don't follow the instructions, they mostly get bullied really hard, that it has led to a of suicide's in the past.

Even though there are a lot of people that support this there are also people who don't, and totally "brake the Standards". Like Jessi, Hwa Sa (MAMAMOO), Jennie (Blackpink), Lee Felix (Stray Kids), Joy, and Fatou (Black Swan).

Survey Link: <https://surveyhero.com/c/a8b418ba>

A lot of people think that these Standards are unnecessary and unhealthy and are definitely not a good Example for their young Fans. Than to spread hate towards people that don't follow these Standards, it is way better to spread awareness and love.

E-Mobility

The driving of the future?

by Franca Harzl

SIMPLY THE BEST QUESTIONS

Q: What is E-Mobility?

A: It's all cars or means of transport, that are electrically powered.

https://cdn.pixabay.com/photo/2020/05/24/08/16/charging-station-5212924_1280.jpg

Q: Which company is the most known and richest?

A: It is Tesla. It's a California-based company, which makes electric cars. The name comes from the inventor Nicola Tesla, because he worked with electricity and electric cars. It was started in 2003 by Martin Eberhard, Dylan Stott and Elon Musk. Today is Elon Musk the Chief of it. He's on the third place of the richest mans on the world.

Their first car was only sold in 2008, and that's the Roadstar. So far, there are already four different ones. You can see more and more of them on the streets because they are not too expensive. The model 3 costs at the cheapest configuration 46 000€. Of course it's not so fast, but the most expensive one of the model costs 59 990€. Then you will have 261 km/h.

https://cdn.pixabay.com/photo/2021/01/21/11/09/tesla-5937063_960_720.jpg

Q: What are the disadvantages of an electric car?

A: It takes longer to charge than to replenish gasoline. On average, it takes about 20 minutes. This means that you need to wait until it is finished. If you run out of battery and there is no charging station nearby, it's also a huge problem, because you have to call the towing service.

E-Scooters

Since 2019, you can use e-scooters in Austria on the road, but it must not drive more than 25km/h. At the age of 12 it's allowed to drive with it, and if you are younger you need a bicycle driving license.

New generation

Some people, say that in a few years the new generations will almost drive only with e-cars, because charging is cheaper, and purchases of them are increasing every year. They think it's the driving of the future.

The top 10, Netflix series & films!

If you are bored at home watch them

by Felix Wieser

On the previous page Mrs. Friedel wrote about streaming Platform's. I have chosen the top 10 Netflix series & films I recommend you. I am sure that you can find series or film for each taste.

	The Name	When?	How many episodes per season?	How many seasons? /How long is the film?	What kind of series/film?
1.	Who murdered Sara?	2021	10 episodes	1 season	Mystery, Thriller
2.	The Gang of Baker Street	2021	8 episodes	1 season	Thriller, Mystery, Horror
3.	Avenger: Endgame	2019	-	182 min	Action
4.	Ginny and Georgia	2021	10 episodes	1 season	Drama
5.	Naruto Shippuden	2007-2017	500 episodes	26 seasons	Action, Adventure, Comedy
6.	Bad Trip	2020	-	-	Comedy
7.	Secret Magic Inspectorate	2021	-	104 min	Fantasy
8.	Riverdale	2017	86 episodes	5 seasons	Mystery, Drama
9.	The One - Find your perfect match	2021	8 episodes	1 season	Drama
10.	Sky Rojo	2021	8 episodes	1 season	Drama, black Comedy

Naruto Shippuden

My personal favourite: Naruto Shippuden, it's an anime and in the top five of the ranking! In this anime a boy named Naruto is a ninja. At the beginning Naruto Uzumaki is very lonely.

He didn't have parents or someone else who cares about him. Naruto Uzumaki is carrying a fox spirit in his self, but he hates him. Naruto always lo

so he decided to be hokage. Only a small percent of people become a hokage. A hokage is like a mayor, he is the best ninja in the country. He trained very hard to be the best. After a while Naruto get friends. Kurama, his fox spirit, was one of the new friends. Together they defeat all opponents and Naruto Uzumaki get the new hokage!

https://de.wikipedia.org/w/index.php?title=Naruto_Logo_Deutsch.svg&filetimestamp=20070706092634&

High-Higher-Buildings

The tallest buildings in the world get higher and higher

by Elias Kitzberger

Far in the past people began to create buildings. In the beginning the buildings were very small, because the workers didn't have any machines that could help to build these buildings. But now we build a lot of buildings every year, like houses, schools and many more. The highest building right now is the Burj Khalifa. This building is in Dubai and 828 metres high, but there are two new buildings in production which should be much bigger than this tower. The Jeddah Tower in Saudi Arabian will be about 1000 metres high and the Dubai Creek Tower could be even higher. But the exact height isn't sure.

[Flugzeug Gebäude Perspektive - Kostenloses Foto auf Pixabay](#)

Burj Khalifa: The Burj Khalifa has been the highest building in the world since 2009. They began to build this skyscraper in 2004. First the building was called Burj Dubai, but they renamed it in honour of the president of the United Arab Emirates, Khalifa bin Zayed Al Nahyan, Burj Khalifa. The building was designed by the architect Adrian Smith, an international architect. Of course, such a high building costs a lot. The Burj Khalifa cost about 1.5 billion US\$.

[Dubai Turm Arabische - Kostenloses Foto auf Pixabay](#)

Jeddah Tower: The Jeddah Tower is a skyscraper construction in Jeddah, that's in Saudi Arabian. It should be the first one kilometre high building in the world, but in January 2018 they stopped building. They wanted to start building again in 2020, but because of the Covid-19 Pandemic they couldn't start. After the pandemic they want to start building again. The tower was only 256 metres high when they stopped building. To build the Jeddah Tower they have spent a total amount of 1.23 billion US\$ till now.

[Jeddah Tower August 2019 S.Nitzold - Jeddah Tower - Wikipedia](#)

Dubai Creek Tower: It was expected that the Dubai Creek Tower would be finished in the year 2022, but because of the Covid-19 pandemic it is not clear when the building will be finished. On 4th April 2020 they stopped building the tower, because of the pandemic. The goal for the height of this tower is clear, it should be the highest building in the world. So, the tower will be at least 828 metres high (height of the Burj Khalifa), but the height could be about 1300 to 1400 metres too, that isn't fixed yet.

[The Tower at Dubai Creek Harbour1 \(cropped\) - Dubai Creek Tower - Wikipedia](#)

If you want to find out more about the highest buildings, watch this video: [\(3600\) EVOLUTION of WORLD'S TALLEST BUILDING: Size Comparison \(1901-2022\) - YouTube](#)

The most successful musicians in 2020

Musicians who had their breakthrough in 2020!

During these years, many things have changed. The music, the clothes, the movies - everything has changed, and so has the list of the most successful musicians. I must admit that sometimes it is very confusing, but with the help of US Billboard and others, we always stay updated. The good thing is that everyone can show their talents. We have apps like YouTube, Soundcloud or Spotify that help spread their music.

Here we have **Megan Thee Stallion**. She is 26 years old and was born in the USA in Bexar County, Texas. Megan was raised by her mother alone until she was eight, when her father returned from prison. Holly (Megan's mom) is the one who sort of introduced Megan to the rap industry. Ever since Megan was a baby, her mom would take her to the studio to record songs. Sadly, Holly was diagnosed with a brain tumor and passed away in March 2019, which basically left her parentless since her father passed away when she was just 15. Surprisingly, that was not the end of Megan's tragic story. Outside a party at a private estate where rapper Tory Lance and Megan had met, an argument broke out that resulted in Tory Lance shooting her in both feet. Tory was charged with carrying a concealed weapon in a vehicle and sent to jail but was later released on bail.

There were also very good moments in her life, and she also has very many fans who always support her. With her singles "Savage" (103 million views on Youtube), "Hot Girl Summer" with Nicki Minaj and Ty Dolla \$ign (100 million views on Youtube) or her joint single "WAP" with Cardi B (391 million views). They are not only popular on YouTube but are also very popular on the app Tick tock, besides, they were on the US billboards for a long time.

Rodrick Wayne Moore Jr, also known as Roddy Ricch, is a 22-year-old American rapper born in Compton, California. Roddy began singing and rapping at the age of eight, which led to him releasing his first two singles "Feed Tha Streets" and "Feed Tha Stress II" in 2017. His fame began to increase in 2019 when he released his single "Racks In The Middle," which featured the late Nipsey Hussle, earning him a Grammy Award for Best Rap Performance.

His biggest hit is the single "The Box" from his debut album "Please Excuse Me for Being Antisocial". He also won 9 Grammy Awards, two BET Awards, two BET Hip Hop Awards and an American Music Award.

Besides from his rapping career Roddy has a child with 25-year-old Allie Kay, who likes to keep her life private.

So, all in all, Roddy Ricch is a very successful rapper and father who has worked hard to get where he is and deserves it!

https://cdn.pixabay.com/photo/2021/04/11/18/50/mobile-phone-6170575_1280.jpg
https://cdn.pixabay.com/photo/2017/08/10/03/00/youtube-2617510_1280.jpg
https://cdn.pixabay.com/photo/2017/06/26/09/06/app-2443125_1280.jpg

K-pop band

How did BTS become so successful?

by Merit Aifesehi

With their single "Mic Drop." They are the first Korean musicians to top the U.S. Billboard 200.

In 2020, BTS became the first South Korean band to reach number one on the Billboard Global 200 and US Billboard Hot 100 with their Grammy-nominated single "Dynamite" and remix of "Savage Love," and became the first group to have two number one debuts on the Hot 100 with the launch of "Life Goes On."

They have worked very hard and have grown their Fanbase. In hard times they have even thought of disbanding, but they kept it together and, that is how they became so successful today.

What happened between Jason Derulo and BTS?

American singer Jason Derulo is accused of abusing K-pop band BTS for his benefit after he failed to thank them in a video celebrating the huge success of their remix of "Savage Love". Fans were very upset because without the BTS army he would not have made it to the top.

Does someone from BTS have a girlfriend? When it comes to BTS, there are numerous rumors about the guys having girlfriends or being in relationships.

Is this the end of a long and successful career?

An unsuccessful start into the season for Sebastian Vettel

by Felix Wieser

Sebastian Vettel doesn't feel well after the unsuccessful start into the season. Now Timo Glock and Ralf Schumacher are also criticizing him.

Timo Glock and Ralf Schumacher were hard to Sebastian Vettel. Vettel finished the first Grand Prix of the season in Bahrain in an Aston Martin on the 15th place and made many mistakes. In the second Grand Prix he doesn't even finished the race.

He made many mistakes some in the race and even some in the qualifying. For one mistake he got a penalty*. He has to try to act cleverly and really concentrated, "Glock told to Sport 1.

[https://de.wikipedia.org/wiki/Datei:2019_Formula_One_tests_Barcelona_Vettel_\(47200008782\).jpg](https://de.wikipedia.org/wiki/Datei:2019_Formula_One_tests_Barcelona_Vettel_(47200008782).jpg)

Is this the end of Vettel's career. The four-time world champion isn't as good as in the last few years. He can't concentrate well during the race.

<https://pixabay.com/de/photos/rennsport-formel-1-boxengasse-3415413/>

***15th place:** Every team, like Mercedes, Red bull etc. have two drivers so totally there are 20 drivers and the 15th place is very bad. Aston Martin isn't a bad team. His teammate Lance Stroll finished on the 8th place.

***Penalty:** You get a Penalty when you bring another driver into trouble because of your own mistake. A penalty is negative. You can get a five second and a ten second penalty. When you are at the box to change your tires, you have to wait five or ten second longer, before you drive out of the box.

From anger to charity

Why Ronaldo's fit of rage had also an advantage

by Elias Kitzberger

Every four years a WC (World Cup) takes place. The next WC is going to take place in 2022 in Qatar (Qatar). France won the last WC. Only 32 teams can take part in this competition and the WC-qualification determines which 13 teams from Europe take part. And this qualification is now in whole Europe. The teams are distributed in groups where each team plays against every team in its group twice. Austria has also a chance to take part in this competition.

Ronaldo Fußball Serbien - Kostenloses Foto auf Pixabay

Two weeks ago, a scene overshadowed the game Serbia against Portugal. This game ended 2:2, a draw which meant one point for each team. In the overtime Cristiano Ronaldo one of the best soccer players scored a goal. 3:2 for Portugal everyone thought and every player from Serbia was disappointed. But the referee decided that it wasn't a goal. The ball wasn't over the goal line, the referee thought. In the WC-qualification there is no VAR* that could check if this really was not a goal. Ronaldo got very angry because Portugal would have gotten three points, if this goal had counted. He wasn't that angry in a soccer game for a long time. He ripped his captain's armband* from his arm, threw it on the ground and left the pitch. If Portugal had won this game, they would have had a real chance to take part in the next WC in Qatar.

After this game the captain's armband was auctioned* for 64 000 euros. The money they made was given to a sick child. A very nice gesture, I think.

Rank	Team	Games	Wins	Draws	Loses	Goals for/ against you	Points
1	Portugal	3	2	1	0	6 3	7
2	Serbien	3	2	1	0	7 5	7
3	Luxemburg	2	1	0	1	2 3	-1
4	Irland	2	0	0	2	2 4	-2
5	Aserbaidschan	2	0	0	2	1 3	-2

VAR: The Video Assistant Referee can check goals after they are scored. They can watch the situation again in slow motion as often as they want and so they hardly make mistakes. Often the VAR is a decisive game character. But the VAR is also in critic.

captain's armband: Every soccer team needs a Captain. He leads the team through all the games. To mark the captain, he gets a loop. He ties it around the arm.

auctioned: When something is auctioned everyone can say a prize he would pay for the auctioned thing. The person with the highest bid wins and gets the thing. Of course, he has to pay the price for it.

The FIBA 3x3

Olympic Qualifier 2021

It will be in Graz!

by Franca Harzl

SIMPLY THE BEST QUESTIONS

Q: When will the tournament be?

A: From the 26th till the 30th May 2021 the best 3x3 basketball teams will match up for the games in Tokio.

url: https://cdn.pixabay.com/photo/2017/08/07/22/24/hobbies-2608561_340.jpg

It will be on the Hauptplatz next to the Rathaus.

Q: Who is a good player?

A: A very good player from Serbia is Dusan Bulut, because he scored a lot of points. You can see all the rankings on fiba3x3.com.

Q: What is 3x3?

A: It's a basketball tournament in which 3vs3 people play on one basketball hoop. Every team has 4 players, because only three are on court.

Q: Why is it in Graz?

A: One of the goals of the City-Graz is it to be the sportiest city in Austria in 2021. Some even have the opportunity to train for free at a sports club of their choice in 2021, because they have a social card. Currently 12 392 people have this card.

Not normal

But this tournament isn't a normal one as you know it, because it's on the street and in gyms all over the world.

Words of the press Conference

„We are overjoyed that we were able to bring this great tournament to Austria,“ says Basketball president Gerald Martens,“ Not only because we will be experiencing an event of superlatives in Graz, but also because our successful national teams take place of the century.“

Only one person from Austria is in the NBA. His name is Jakob Pörtl.

become more popular.

NBA (National Basketball Association)

Many people, that are playing basketball are fans of the NBA. It's the most popular league of this sport. Players like LeBron James and Stephen Curry have millions of followers. Since 2016 the NBA has also their own 3x3 tournament. There are playing local Amateur players from the USA.
