

## M 11: Stretch your Memory: Clothes and Shopping

<p><b>Clothes:</b></p> <p><b>My taste in fashion</b> I don't really care about fashion, but I love wearing comfortable outfits. My favourite piece of clothing are my striped socks- they are made of wool and they are extremely fluffy. My grandma made them for me. On the weekends, I always wear my black and grey sweatsuit. The fabric is very soft. I bought it last year when I went shopping with my mum – I hate shopping!</p>	<p><b>Clothes:</b></p> <p><b>My taste in fashion</b> I am a very fashionable person. I love high quality clothes, and it's important to me to have the latest fashion. My favourite clothes are my glitter crop-top and my denim blue jeans- they are made of organic cotton. The fabric is very strong, and I wear them every day. These jeans are timeless. I sometimes shop second-hand, because retro clothes are trendy and cheaper. Buying modern clothes at shops is usually quite expensive.</p>	<p><b>In town:</b></p> <p><b>My favourite place</b> My favourite place in town is Stadtpark (or City park). From school, it takes you 20 minutes to walk there. You can also go by bus, then it only takes you 10 minutes. The bus stop is right in front of the school. If you walk, make sure to take a map or to use an app. The easiest way to get to the park is if you stay on the bike lane. Always follow the signs on the bicycle lanes, they will take you right to the park!</p>	<p><b>Shopping:</b></p> <p><b>Shopping with mum</b> I love going shopping with my mum! I always tell her what I need, and she will buy it for me if it's not too expensive. We always go from shop to shop and compare the prices before I try anything on. Then we choose the cheapest shop and my mum helps me find the correct size. When I am looking for a new pair of jeans, she will always find one that fits me perfectly. At the end, she always pays cash because she doesn't like credit cards.</p>	<p><b>Shopping:</b></p> <p><b>My relationship to shopping</b> Shopping is the worst activity ever. It is even more boring than watching my sister's favourite TV program. The shop assistants always bring me clothes that don't fit and that are too expensive. It takes so much time to find a piece of clothing that I like! The worst part is always going to the changing room and trying on different sizes and colours. The fabric is usually too scratchy and I end up not buying anything.</p>
