

UNBELIEVABLE ANIMALS

Watch the videos on Moodle.

Then check if you agree with the following text.

Correct the mistakes.

For my last English homework I have watched some really cool videos about unbelievable animals. You should watch them as well.

- In one of the videos you see an ~~octopus~~ *orangutan* smoking a cigarette.
- In another one you see a ~~frog~~ *cats* racing through the corridors of an apartment.
- A third video shows a ~~cat~~ *an octopus* that is carrying a coconut.
- One clip shows some salamanders and caterpillars ~~flying over the ice on the North Pole~~ *rolling down a hill*.
- In one video you see a crocodile ~~rolling down a hill~~ *jumping really high / jumping out of the water* and
- in another one you see some ~~penguins~~ *dogs* skateboarding in a park.

Unbelievable, don't you agree? Actually, all the videos are real, except for one. Which one is fake? Can you guess?

I think...._____
