

Sicily

## Gran Tower

You can't believe what happened in the  
last week I went to a experience with  
Gran Tower. We flew with a space plane  
who don't break by fire tampering.  
To the Ether on Sicily. We don't know last  
we must wing to a jeep with big fire.  
Because there were a strong ground.

I went there with my three friends  
Felix, Elias and Kevin. Felix and Elias  
are 12 years old and Kevin 10 years. And  
naturally with Gran. On the Ether gives  
nature animals or plants. Therefore we  
ate space food, it was getting used to. On  
one day we went to a party who were  
in a basin above the lava from Ether.  
There was very hot because basin was  
very near to the lava. Gran was an  
alien she don't want put on protective suit  
but I and my friends must put it on.  
The party was very exciting. We can  
skipper in to the lava and not swim  
in the lava it was crazy. On the last  
day we phone down to our space plane  
and we flew back to Gran. It was  
a amazing trip with Gran Tower

I really liked it.
