

Reporting : Write a short newspaper article

After listening to the radio shows about Felix Baumgartner's most recent adventure into a plant cell write a short newspaper article summing up the main facts.

In your article sum up the main facts of this mission:

- briefly describe the problem
- describe the main events/steps of the mission
- and inform your readers about F. B.'s findings inside the cell.

In your text use **some** of the following reporting verbs and watch the use of the tenses when you report what F.B. and the biologists have said.

said	wondered
told sb.	wanted to know
claimed	thought
warned sb	knew
explained	could see
asked	expected
