

# Present Perfect Speculation

Working alone, try to guess how many people in your group have done the various things below. Write your guesses in the column marked *How many?*

Now work as a group and take it in turns to ask each other "Have you ever...?" questions to find out the exact number who have done each activity. Write this number down in the column marked *Correct*.

Based on the results, fill in the missing words in the sentences below. Choose from the following:

- All of us/Everyone
- Most of us
- Some of us
- Only a few of us
- Hardly any of us
- None of us/No one

		How many?	Correct
1	_____ has/have stayed up all night.	_____	_____

## Present Perfect Speculation

Before class, make one copy of the worksheet for each student.

### Procedure

Divide the class into groups of 5-6 students and give each student a copy of the worksheet.

Working alone, students try to guess how many people in the group have done the various things. They write their guess in the column marked *How many?*

They now work as a group and take it in turns to ask each other "Have you ever...?" questions to find out the exact number who have done each activity. They write this number down in the column marked *Correct*.

They now fill in the missing words *All of us*, *Some of us*, etc. in front of each statement, based on their results.

As a follow-up, go through the twenty statements with the whole class, taking it in turns to ask students from the various groups to read out what they have written.
