

# Passive Bricks

1. Watch the video about how ketchup is made.

2. Then sum up what you have found out. Drag and drop the bricks to form meaningful sentences.

## Process

is squeezed	is produced	is boiled	is tasted
are added	is sent	are transported	are crushed
is added	is filled	is tested	are shipped

## Additional information

across the world	into large steel vats.	into a thick paste.
to the factory.	at the Heinz factory.	at 100 degrees.
by the Heinz taste specialists.	into bottles.	to the mixture.
to the labs and tested for acidity and saltiness.	to the tomato paste.	in a special speed test.

95% of all the ketchup sold in Europe	is produced	at the Heinz factory.
Tomatoes	are crushed	into a thick paste.
Big bags of tomato paste	are transported	to the factory.
The tomato paste	is squeezed	into large steel vats.
Next, vinegar, sugar and salt	are added	to the tomato paste.
Then, the content of the blue bags	is added	to the mixture.
The mixture	is boiled	at 100 degrees.
Then the finished ketchup	is tasted	by the Heinz taste specialists.
Each batch of ketchup	is sent	to the labs and tested for acidity and saltiness.
Then the thickness of the ketchup	is tested	in a special speed test.
Finally, the ketchup	is filled	into bottles.
Every day a million bottles of ketchup	are shipped	across the world.
