2 SECRET: THE LUDWIG CONSPIRACY 3

SAVARIA

Dear Dr. Von Gudden,

Your psychological reports are excellent. Everyone who reads them believes the king to be mad. However, we must act faster, for the Ekaterina leadership wants me to be named regent before the beginning of summer.

In your next summary, include some truly bizarre tales about my nephew Ludwig. Pretend that he sends the kitchen servants on quests to find treasure in distant lands, and beats them when they return empty-handed.

You will be rewarded for your efforts, Prince Leopold
