

Graz, November 2012

To Whom It May Concern:

I have had the pleasure of teaching Ms Susanne Huber in two of my ESL methodology courses at Graz University and am impressed by the high motivation and interest she has shown concerning all the topics that we have discussed. Ms Huber is one of the students who really tries to profit as much as possible from each class and works hard for each of her assignments.

In the course “Error Analysis and Assessment” Ms Huber has shown her good command of the English language and her excellent understanding of learners’ needs. Ms Huber has shown a keen interest in all the ideas related to “assessment for learning”. This course is not only challenging on the linguistic level but requires a high degree of responsibility because the university students are linked with high-school students on a Moodle platform and give feedback to these younger learners. Ms Huber’s feedback and corrections of learner texts have all been very helpful and encouraging and have shown her excellent understanding of the concepts we have discussed in class. She is on the right track to becoming an excellent language teacher.

This semester Ms Huber is taking my course “Communicative Grammar”. All her assignments so far have been of excellent quality and show her openness to new ideas and methods of teaching. Ms Huber explores new ideas in depths and can use her very good theoretical knowledge of the principles of learning in order to analyze teaching materials critically and improve them accordingly.

Susanne Huber is a very well organized, highly responsible person and has a very pleasant, outgoing personality. In my courses she has always seemed genuinely interested and curious to learn. In summary, I highly recommend Ms Huber for any language or methodology program. If you have any questions, please do not hesitate to contact me.

Sincerely,

Dr. Elisabeth Pölzleitner
