

## KEY - script 2: My Dream Job

Describe why you would like to have this job, what the job requirements (e.g. education, skills) are and what you think your chances of one day getting such a job are.

Sometimes when I'm sitting at home, making (doing 1) some homework, I feel boring (bored 2) and ask myself why I'm doing all this. But than (then 3) I think of my dream and it's not so hard to get on with my work.

I'd like to introduce to you my dream job (to you 4). It's the position of a town councillor competent (responsible 5) for town planning. A year ago I got a summer job with the town council and there I had met (met 6) the man who does this job for our town. Since then I'm (I have been 7) dreaming of getting this position once (one / some day 8). Of course, it's hard to get this job.

First you need a university degree. I wanted to do political science and economics, but you can only do this (these 9) subjects in Vienna. As I can't afford studying (to study 10) in Vienna, I'm thinking now I could do (I now think / I'm now thinking of doing 11) architecture in Graz. That would give me some training in town planning, (P:12) which is extreme (extremely 13) important for a town councillor.

The next important thing (Next, it is / Another i~ thing 14) is to know many important people, which (who 15) have an influence (influential 16) position in a political party or in the government.

The main reason why I'd like to do this job is that you're your own boss. You can change (put 17) many of your ideas into practice and do something against (about 18) things that you think need change (to be changed / changing 19). Moreover, you can earn quiet (quite 20) a lot of money.

To get my dream job, I'll have to work hard in order to finish my study (studies 21) successfully (successfully 22 ). And I need good luck unless (otherwise / or 23 ) my dreams won't get (come 24) true.
