# Christmas

## holidays

In the Christmas holidays I like to get up late in the morning and have a long sleep. We and my family usually go skiing for one week. Most of the time we stay in a small room on the second floor from where you can see all the great big fireworks. On our skiing holiday we of course bring all of our Christmas presents to play with them if we're bored. At home we all together put away all of the Christmas decorations and clean up. Sometimes we also go to a party and stay up very late. And sometimes we just build a snowman and fool around in the snow.

# My Unusual Pet ☺

My unusual Pet is big and has got thick white fur to keep it warm. It comes from a very cold place on earth. It's name is Mr. Fridge because he lives in my fridge. He loves to eat fish and marshmallows. I never feed him because there's always enough food in the fridge. When he wakes to the park he always wears his dark blue coat and his red hat.

# A day in the life of

In the morning my mother wakes me up at six o'clock. But in the weekend I get up myself at seven or nine o'clock.

During the week I catch the tram at twenty past seven. After school I go to

ACE until quarter past four P.M.

When I come home from ACE, I usually watch television and eat something.

I like to watch the TV programmes: Jessie, Sam and Cat, Teen Titans Go and Adventure Time and Gumball.

Sometimes I play Minecraft on the Playstation 3 with my little brother.

I also like to play on my Nintendo.

During the week I go to sleep at half past nine P.M. In the weekend me and my family always watch a movie in English.

In the weekend I like to stay up very late like half past eleven. Then I brush my teeth and go to sleep. And then it all starts again.

# What a great weekend!

I woke up at 7 am.

I brushed my teeth, ate breakfast and got

dressed. After that, at 11 o'clock, me and

my brother played "Minecraft" on the Playstation.

Suddenly a magic force pulled us into the

TV. I couldn't see for some seconds, but

after a while I could recognize a huge

field and many little trees. My brother was

standing next to me. We were in our game!

~~At first we couldn't~~ At first we couldn't

believe it, but at the end we knew there wasn't

another choice. First we went into the woods.

We tried to cut a tree, but it wouldn't work.

As I looked behind me, I could see my

brother trying to ride on a pig. After that we

went to a river. Suddenly ~~there~~ there was no

sun anymore, and we couldn't see anything,

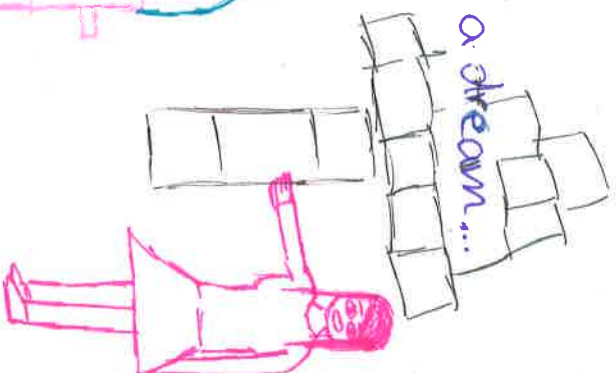

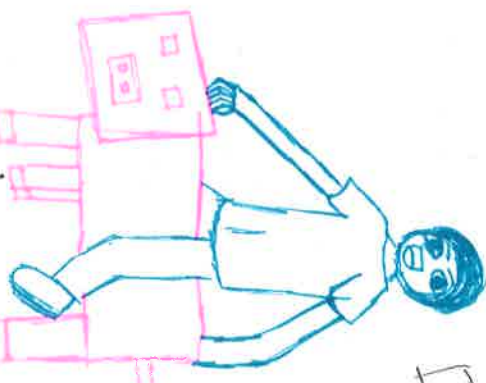

and in the next second we were back, sitting on the couch with our controllers in our hands. We were still paralyzed from what just happened, but in the end we decided to just forget everything.
