Letter for the witch:

Dear Witch!

There is something I will say:

I like you and your son, and also your pets very well.

I like to play with your son and your strange pets.

The pets are very strange pets and also your house is a little bit strange but I like strange things.

When I was at your home it was very funny 😊! You dear Witch makes the best muffins on world. And

I like it very well to eat them. It was one of the best days in my life. But then my parents come

and took me home. At my home they said: "What are you doing there? I don't like when you go to

this crazy woman. You never go to this family again!

O.k.?" I don't understand my parents. I think parents don't like strange things. It's very sad

because I can't come again. I hope that I can eat

your good muffins again. I also hope that I can

play with your son again!

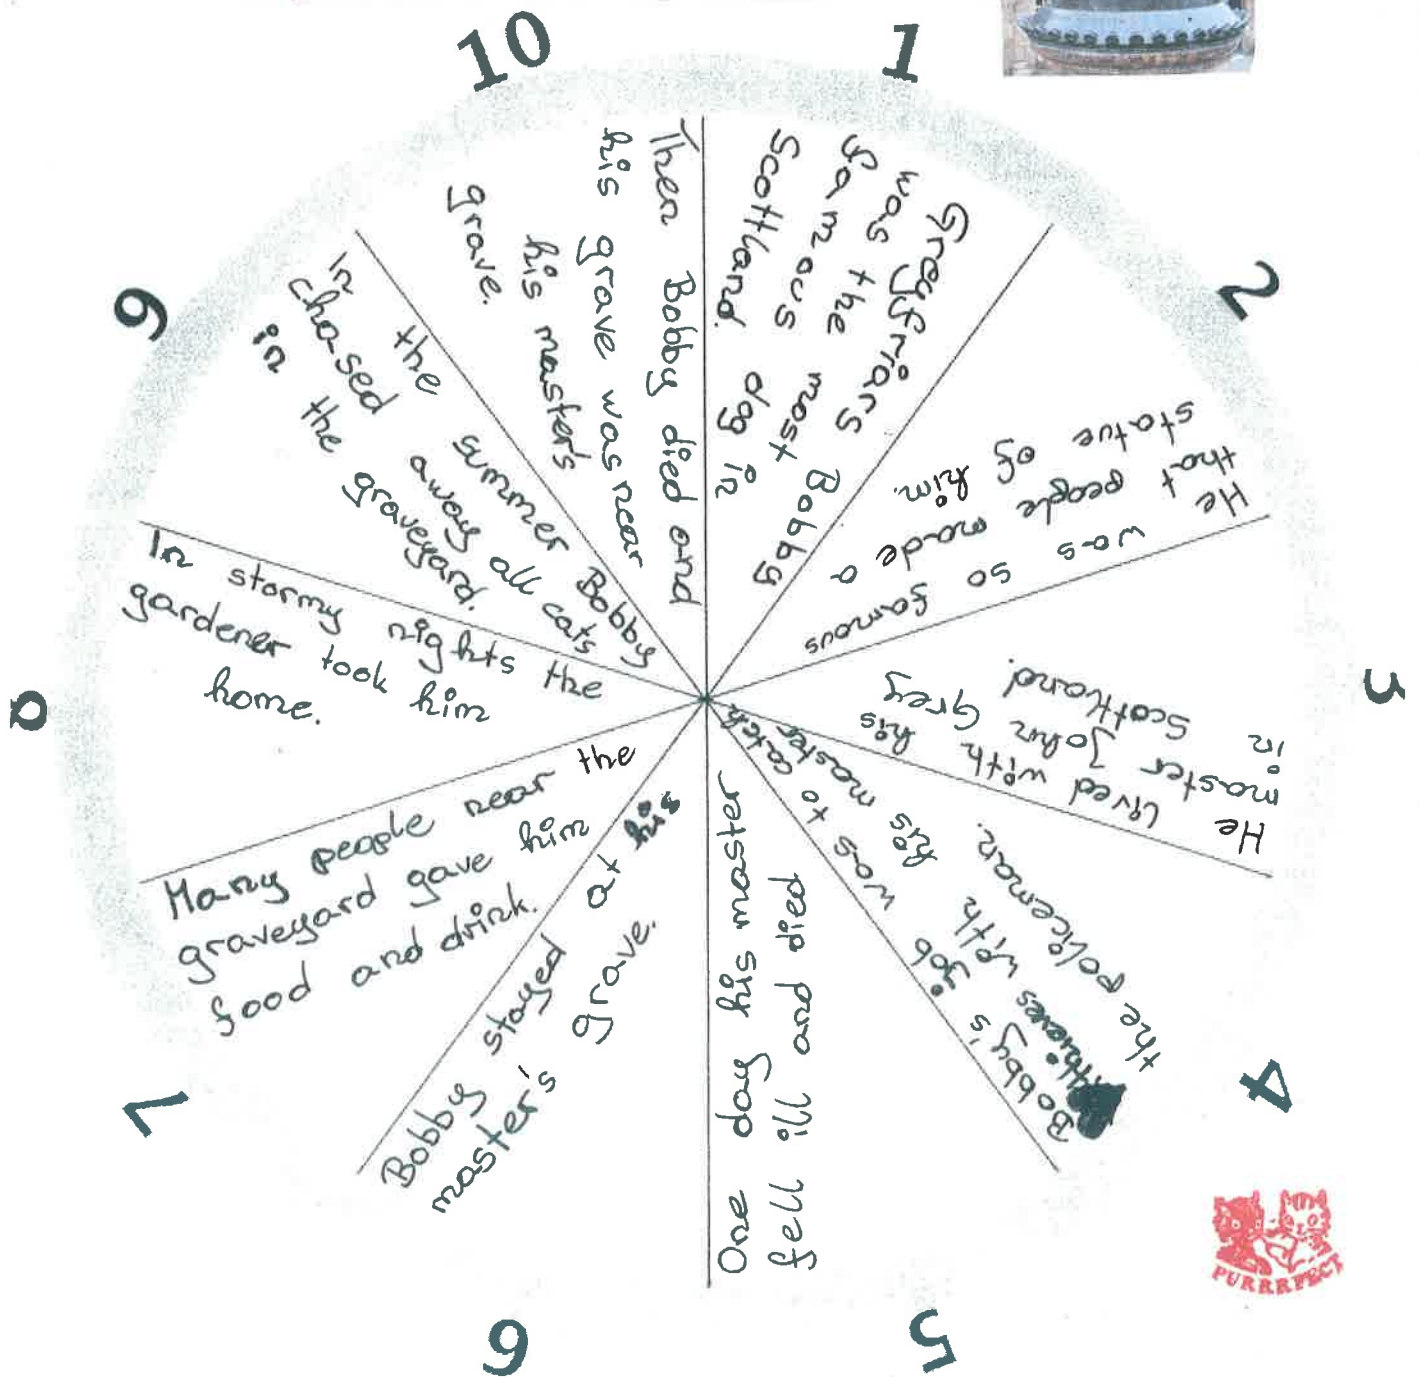

From a very sad friend!

This is
perfect, Anna!

Hi Anna,

You'll never guess what! You know my aunt Elizabeth likes travelling? This time she (a) went... to Greenland and she found a huge (b) egg... in an ice cave there. She brought it back to England and she gave it to us. We put the egg in a cardboard box (c) next to the radiator. A few days later a bird came out of the egg. But it's not an ordinary bird. It's a pterodactyl!!! He's very sweet. We call him Dacty. There's a problem! He gets (d) bigger every day. Now he is too big for the house. Mum (e) doesn't like him flying around and yesterday, he (f) hurts his wing. He banged it on (g) a furniture. He doesn't want to go outside. It's too (h) cold...

Come and see him sometime.
Love Helen

The Winnie - Witch Catalog

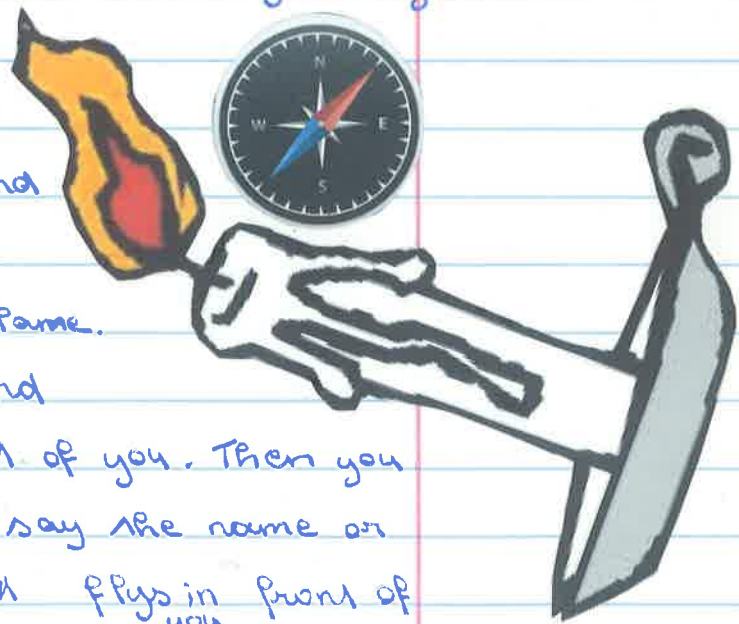

The Black raven:

This raven has the best color. I call it: night black. Because you can't see ^{him} in the night when he closes his eyes, because his eyes are red, light red. Every witch needs a black raven because it's the best postman (post raven). He is also magic he can transport also things with his eyes. When looks very to a thing it begins to fly and but he can also do other magic things...

The Candle - compass:

It looks like a normal candle and it's almost a normal candle. It's white and it has a very light flame.

You must say a magic spell and then it shines and flies in front of you. Then you can do a special thing you say the name or where you want ^{to} go. And then it flies in front of you to the place. It also can show ^{you} special, magical hidden places.

The old smelling socks:

These socks are normal (old) magic socks but you can call ^{it} what they can do. (It's also a

kind of magic) These rocks are yellow and there are so many holes that you can't count them. Winnie (for example) can wear this old smelling socks when she must speak with a ¹⁷⁻¹ nervous postman. The witch must put on something on her nose, because the smelling is so extreme that the postman or whoever it is will run away.

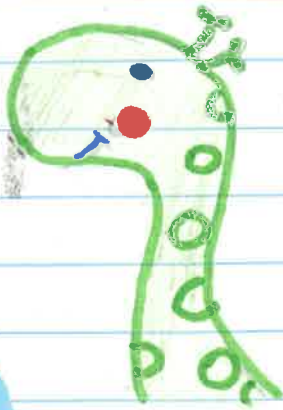

Tipp:

Never wash or clean this socks.

!!! And keep them in the post cellar room. !!!

Nessie

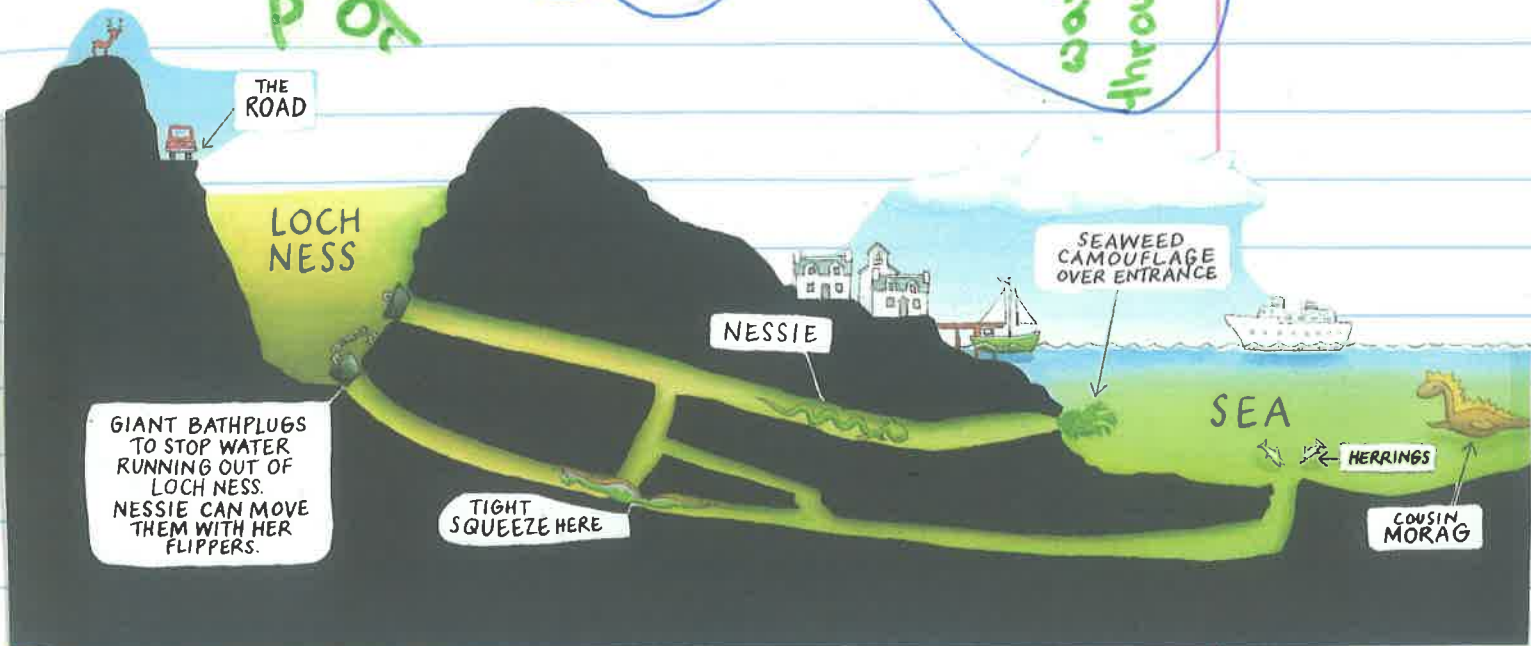

Nessie's Family:

I'm boring!

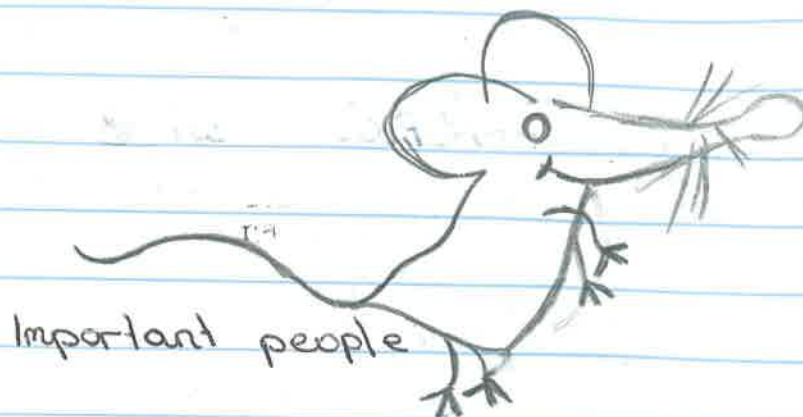

Maybe I shall meet my family!

They couldn't explain why the water didn't run away through the tunnels!

Everybody wanted to find out how Nessie came to be in Loch Ness and why she looked different to each person who saw her. Some people said that she came and went through mysterious tunnels connecting Loch Ness to the sea. They said there were other monsters too!"
