## After 50 pages

I've read the first 50 pages now. Tell now I like the book, but I would say it is a little boring.

I think that their cousin Jonah will help them searching the clue. Maybe their bad relatives will return and asked them for help, but I don't think they would help them. Maybe Jonah will translate the clue Amy and Dan found. I'm sure that Amy and Dan will work together again. I think that they will have to return to the palace again so they find more information there. I hope none will be kidnapped again by the other family member. Their relatives might want to steal the clue. I think that their uncle will spy on them and and will abuse them. I think that their cat will help them with something and I hope also Kallie and Jonah will play a big role in the book. Maybe if Amy and Kallie will be kidnapped by someone. I am sure at the end they will find the eighth clue and they will return home till they find their next destination.

I hope the book will be very exciting at the end. ♡ 1

Dear Diary,

Today was a very hard day. As we arrived in Asia we started off to the museum where we found the clue. Then Amy and I had a big conflict about our parents. The I run away and I lost my sister and my du'pair Nelly in the crowd. As I walked down a street other family member shackled me and carried me into a big black van. They wanted that I tell them if we have the next clue, and if yes I should tell them where it is and where they can find it. I woke up in a factory of lollipops or something like that and the factory owner was luckily my good old cousin Jannah. He took me with him and we went to his house ate junk food and played video games together, I was so happy to play video games again, because it is so long ago that I've stayed at home longer than one day. And my sister does'nt like it, because she always reads her boring books. After that we tried to find Amy and Nelly, but we did'nt. Jannah said we will look for them tomorrow.

Good night!

Dear Tom, ♡

Letter by Dan ♡

27<sup>th</sup> April 10

I am writing to you because, in the last few weeks there was a lot happening to me. I hope you're good. How is it going in school?

As you know my sister and I went to Asia. Asia is very fascinating, there a lot of people here and everyone has a smartphones. My sister and I already found the next clue in a museum. I had to climb on a palace, because the clue was hidden behind a very big stone on the very top. Of course someone saw me and then I was in trouble. One day after we found the clue me and my sister had a argument and then I went off to the busiest street in the whole city and then I was kidnapped, by my relatives, they brought me into an dollpop's factory. The dollpop factory is owned by Jonah Wizard. His family is very powerful and Jonah is a real star ★. He took me with him and we played video games and hung out a little bit together. Everybody wanted his autograph and his signature... Sometimes I wish my life would be a little bit more normal. I really often think about flying home and going to school again etc.

Please send me an letter too. I hope I'll see you soon.

Dan. 13

Dear Diary, ♡

Today was horrible. Sometimes I don't know what to do, if I should give up the whole thing and go back home again.

I don't know if we will ever find all the clues and get the most powerful Cahills of all time. I wish we would be a normal family, which does normal things like, going to school, riding bikes, cooking.

Yesterday Dan and I had a horrible fight about our parents, in the last few weeks I think a lot about my parents. If I really knew who they were, if they were good people or like all our other relatives. Dan was a really young child when our parents died and I shouted at him that he did 'nt know them. And then he ran away in the middle of all the people and then he got lost and Amy and I did 'nt find him. I hope everything is fine with him and he was 'nt kidnapped by our relatives. That's also something I would like to have normal relatives, a normal family, normal parents, a normal life like everybody else has...

Amy ♡

# Feedback

All in all I didn't really like the book. It was kind of boring and very hard to understand sometimes.

You've said next time we will choose our own books, I am very happy about that, because then I will enjoy making booklets and other stuff.

The book is very confusing with all the different characters and sometimes also complicated language. I think that a book series with so many books can not be interesting anymore, even if there are other authors every time.

I really like booklets and creative work like this and I hope we can do other booklets on more interesting topics in the future. I am very proud of all my booklets I've done so far.  
I hope you enjoy reading my Booklet!
