

Dear Aija,

This is an amazing
piece of work. Your
texts are full of great,
creative ideas and
you've used very nice
new expressions that
you have learned from
the book.

Absolutely perfect

Keep up the good spirit!

Greg's

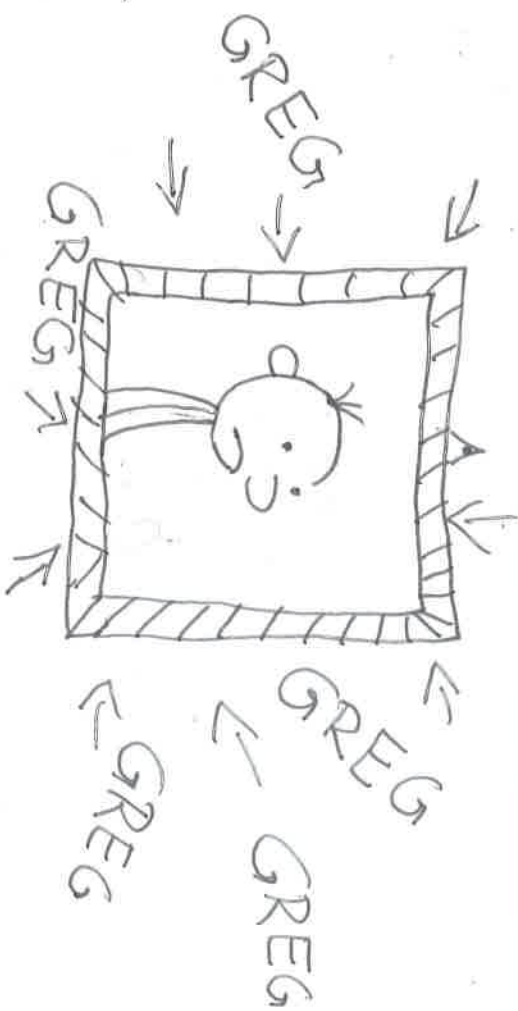

Diary

Person 1

DIARY OF
A WIMPY
KID

The Ugly
Truth

Hello! My name is Greg Heffley and in this book it is all about me and the embarrassing things that happened to me. My mom ones bought me a book and on the cover stands "DIARY". Oh no! How embarrassing! A diary for a boy. But if you believe me or not I like to write everything in it what happened to me. I go to Junior High school together with Rowley. Rowley was my best friend but now I don't like him anymore. But the problem is that he lives in our street and I am not very afraid to meet him. I have two brothers: Manny and Rodrick. Rodrick is my older brother and I don't like him because he thinks I am kind of a baby or so. Manny is my smaller brother and he always gets what he wants. Mom things he is kind of an angle or sobut he always gets on my nerves. My whole family is very embarrassing. Rodrick ones told me that people vent through the canals. That was the idea for the problem with Rowley. But the canal really stunks and I don't want mom to think I am in the paper because I smell a bit stunk

About all these things I write in my diary but don't think I do it because I like it. No! I do it because I am going to get famous one day. When everyone wants to ask questions to me I can say: "Here in my biography you can see all about me when I was a child." (I am not going to say DARY!!!) But that all is just a dream but maybe...? I am not going to say a lot about Rowley. Maybe I say that there was a boy in our neighbourhood who sometimes played with me but I can not really remember how he is called. Maybe Rupert or Rudolph. I can't remember. But I am sure he is not getting famous because I will get.

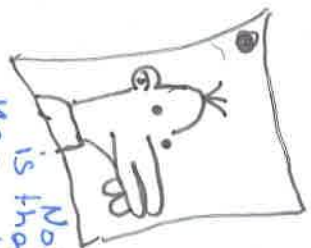

To time I have got two friends: Christopher and Tyson. But Christopher is more like a Holliday friend and Tyson is a bit strange. I don't like my school a lot. I think they put everyone who is in the party in this school so that they can not get on their nerves. My older brother Rodrick ones told me: "Don't speak to anyone and don't sit next to anyone. Just be nothing. It's the only way you will survive in that school." I can only say that he is right. But one day when I am famous there will be no Junior Highschool anymore.

yours

Greg

My Family

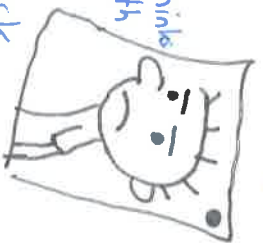

Manny

Manny is my little brother and he always gets on my nerves. I think Mom and Dad like him more than me and Rodrick because he is so little and cute. Manny hides everywhere and he tries everything out. Nothing is sure of him. The really scary thing is that he can watch everything. Manny has a really big fear of ghosts. He didn't even want to go to the toilet because he scares of the toilet ghost.

Rodrick

Rodrick is my older brother and he thinks I am a baby. He plays the drum set with his band Loded Diper. He has got his own band bus. His room is in the basement and he let nobody in. Rodrick likes to make big parties and he also likes to blame when ever he can. I don't like him a lot.

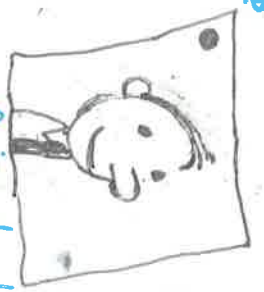

Susen Hefless (Mom)

My mom is the most embarrassing human I know. I think she don't really know what boys in my age really want. I mean I don't want to go outside when the sun is shining very much (I think more than me) and she always bugs him new things. My mom is teacher but now she didn't go to work, I think that is very good because she cooks for us and she help me with my homework.

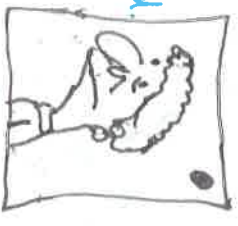

Fred Helper (Dad)

My dad is a very strict man. He don't like to do all the house work. Most of the day he is at his work. We don't like us that much but he also can be a good friend. I think we are very different

Grammy

Grammy is the mother of my dad. She is like the middle point in our family. Everytime when there is a family meeting every one meet at her house. In her house there is nothing for children to play. All the things are very old. Oh a cupboard there is a glass with candies and believe me or not they were already there when dad was a child. Grammy has a picture of every family member. Grammy always have a Talk with the Teenagers in the family. This year I think it's my turn. H

My family is very big. I have four younger-cousins. Dad's brothers are called Uncle Joe and Uncle Larry. I like my family but she is also a bit embarrassing.

Rowley's Diary entry

November

Saturday

Today I was really happy because I go to the Lock-In at our school. I thought it would be a great party with lots of funny games but it wasn't really that what I thought of. Most of the people were boys. We stood there and don't really know what to do. Greg was also there. I hoped that we are going to be friends soon because we make so funny things together. Greg is a bit unfair to me. He always plays tricks on me. I don't really know what I should do at the Lock-In. I don't want to go to the Activity center in the corner because Greg was there and I don't know if the games there were for my age. A bit later we played our first game. It was called Name Game. I was the first one and I gave me a really good name: Respectful Rowley. We also played an other game where we took photos from us. My group made a photo from me when I'm laughing and saying that everything is okay. Greg's group has a little trouble because the teachers didn't realized that there was a harm in the photo. They thought it was some other thing that I don't want to say. It was a bit boring and the teachers were very strict. We didn't even could eat the chips or other things

We brought with us. The teachers collected them all. In the room we were we slept it was so cold that every one layed on his own bed and crambled under his covers. We told each other lots of crazy stories but the teachers didn't even allow us to talk. We made lots of funny noises and it was very late when we go sleeping then. The mean thing was that the girls could sleep in the warm library. Sometimes I also wish that I could be a girl but only some times. At three o'clock in the morning we saw a truck outside. We screamed and waved our hands because we want the driver to take us out here. At seven o'clock all the parents of the children who had a mobile phone stood before the door and ask why the children didn't call them. The problem was I doesn't have a mobile phone and so I stayed at the school together with Gregg who also doesn't have a mobile phone. We sat at the activity center and didn't know what to say to each other. Now I'm at home and I'm really tired. I didn't sleep a lot at the lock-in and I don't think I would go there again.

False Fire alarm

Last Friday something really strange happened. At half past eleven everyone could here the really loud fire alarm. Every one was very shocked all the kids and the teachers screamed in confusion. It costs lots of time to get all the people out of the school but ten minutes later every one stood before the school. It couldn't be an example alarm because none of the teachers knows anything about it. The fire service arrived and checked the house. They couldn't find any fire and so off they go. We know that someone of the students has set off the fire alarm. The director and the teachers are very angry. Some of the children say that the police can see some liquid of the hand from the child who set the fire alarm off. So this afternoon every one was in panic to get chought and nobody wants to go to the toilet to wash his hands. This brought many problems. More about it next time.

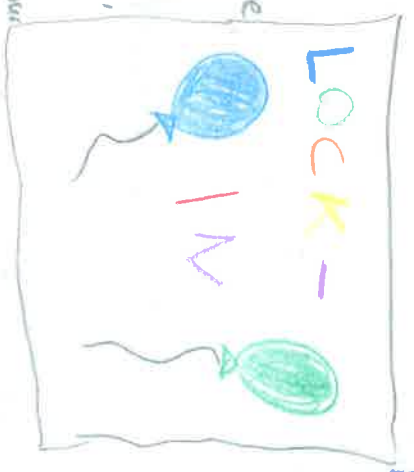

New subject

This year many people decided to take the new subject facts of live with Nurse Powell. She told them lots of interesting things about the live as a grown up. The first homework was to care of an egg like of a baby. "The boys all lost their eggs except of Randy but the girls did a really good job," said Nurse Powell, like the picture you can see a few of the eggs. The girls had decorated them and sewn little bags like the learned in crafts. The bad thing was that Nurse Powell threw them all away. Most of the girls cry cowardly. "One girl called Lisa." "I like this new subject but I found it really mean of Nurse Powell to throw our eggs away, you can learn a lot there," one boy called Greg. "I think that the subject facts of live is a very boring subject. I didn't understand a single thing and I'm not thinking that I can get a good grade." "Yes, opinions can be very different but we hope that the new subject interests you and you want to take part of it next semester."

Lock - In

Next Friday we'll have a great Lock - In at our school, one night at school with party, games and fun, we'll meet at five o'clock at school. Please bring your sleeping bag with you and other things like pigjama, toothbrush and soap. The whole evening we'll play lots of funny games to get know us better after it. We also see for parents who would like to help us with the planning of games and to help us to build up the whole thing. If you are interested then announce you by Mr. Tanner or Mrs. Carr in our school, Games and fun are, waiting for you!

We hope you had a lot of good information about our school to read. See you next time. Your Junior Highschool News team

Manni's Birthday party

Saturday

Today mom woke me up at seven o'clock. I was so tired. Normally on Saturday I sleep up to twelve o'clock. Mom reminded me that it was Manni's Birthday today. So I went down with mom. The whole family except of Manny waited there and they all looked a bit tired. Mom smiled, "Now he is four years old by little boy." She took the birthday cake with four candles and we go upstairs to Manni's room. We sang a Birthday song and then Manni blows out the four candles. Each of us gave him a present. I gave him my old Teddy bear but I swear he threw it away after I go outside. Mom and Dad gave him two DVDs of the bear family his favourite film and a big pirate ship who can really swim on water. Rodrick gave him nothing.

Mys Bear

Manny made a strict arrangement who gets what part of the cake.

I got the smallest piece. Manni's friend gave a party to his friends and mom said that I should help with it. That was so mean of my mom because I was going to play video games together with Rowley. Rodrick has to make party hats. That was the great chance. I took the photo operat and made a photo of him when he folded a piece of paper to a hat. The paper was green with pink candies on it. I think that wasn't a good idea because after that Rodrick swore that he want to kill me, The rest of the day I hid in the toilet. At four o'clock mom said that Rodrick was gone with his band the Loded Diper. So I went out the toilet. There were a lot of small children from the kinder-garden. They all screamed and dropped food all over the floor. Mom said we should play hide and seek together and I should seek. Oh no! How embarrassing. I couldn't find a single one of the children. You would not imagine where they all hide. At seven o'clock the children went home with their parents and I could go to bed.
